Goal

Data Analyst jr.

Skills

Java, Python, JavaScript, C, SQL, DAX, M Language;

Eclipse, NetBeans, Microsoft sql server.

Excel, Power BI.

Employment history

- **Santa Angela Construtora LTDA - IT Intern**

AUGUST - 2024 - TODAY

I was hired in the IT department, providing user support and performing hardware and software maintenance and installation. I also work in data analysis, creating and maintaining reports in Power BI and Excel using SQL queries. I worked on Power BI projects focused on lead analysis, tracking proposals and unit cancellations, as well as managing inventory and Sales over Supply (SoS). Additionally, I contributed to the creation of automated financial reports, monitoring customer invoice status and the company's overall cash flow.

- **Santa Angela Construtora LTDA - IT Assistant:**

OCTOBER 2023 - AUGUST DE 2024.

Here I worked in the IT area, under supervision, providing user support and performing hardware and software maintenance and installation. Developed Power BI projects focused on customer profiling and budget control for an office administration and facilities maintenance team.
